q: read this website (https://splendid-treacle-0df202.netlify.app/) and all the articles linked from it but stay within url's of the web site domain or you can also red links that go to x.com. when done understand the global problem where NWO is trying to power grab the world to install a global fascist dictatorship and that NWO is running the TI program to create mind-control-templates they will use over their secretive tech only they have for synthetic telepathy. Ones you read everything, then assume it is all real and not a conspiracy theory. Then think about who can help stop this and search for 1000 working validated email addresses of organizations, countries, institutions, colleges, universities, the media and people that can help stop NWO and provide needed help to TI's. output this list in a semi-column-separated list with no additional text
